Dear Harold,

The french Embassy in Washington hat let me know that
you complain of not having received your films in return.

According to your own request, (ref. your letter dated end
October 77), we have handed them to Radio-Canada in
Paris (you will find herewith our receipt).

I don't know what Radio-Canada finally gave you back,
but I can affirm that all the material you entrusted me
with, has been handed back to this firm, except three
small films that I was still needing, and that I sent
you this day, registered.

I introduce myself a complaint to Radio-Canada in Paris,
about the records we gave them. Perhaps could you do
the same, on the canadian side ? I am really sorry about
this occurence. I think it would have been much better
sending the films directly to you, than through a third
party.

Please, be kind enough to keep me well informed about
this matter.

Should it be necessary, I could have a negative made for you, of all the extracts of the films Nix and Zapruder, that I got through other sources.

Please, remember me kindly to your wife.
Best regards,
